

HIDDEN DANGERS

POTENTIAL RISKS OF BUYING HEALTH PRODUCTS FROM QUESTIONABLE SOURCES

Contaminated Products

These products may be contaminated with dangerous or banned substances.

Counterfeit Products

These products may lead to undesirable health effects and consequences.

Low Quality Standards

Poor manufacturing standards and substandard raw ingredients may reduce effectiveness of the medications.

Poor Storage Conditions

Medications may be spoilt, deeming it unsafe for use due to poor handling and storage conditions.

No Safety Checks

Health products may have arrived into Singapore illegally and were not assessed for their safety by local health authorities.

Lack of Contact Details

Inability to contact seller should any problems occur. Seller should provide contact details for after-sales support.

Speak with your Pharmacist for advice on medication management, and always purchase from reputable sources!
